

christian fischer

biography.

the career of christian fischer as dj and producer started in 1996. his debut was released in the same year on statik entertainment, involving grandiose reviews. after that, more tracks on the same label followed.

but christian also had great success at the turntables. from leipzig to frankfurt, nuremberg or hannover and as well abroad, in uk, bulgaria, hungary, turkey and in kosovo. he played together with marky, carl cox, dj rush, chris liebong and marco baily, just to name a few. not only his dj career is upraising, also his actions as producer become more and more relevancy.

In 2000, christian came up with his own child: definition records. besides his own stuff, he releases artists like ade fenton, justin berkovi, david squillace, tuomas rantanen, arkus p. or thomas p., heckmann, hertz, brian sanhaji and dj lucca. eagerness guaranteed – and one can be part of – with christian fischer – either as dj or magnetized on vinyl.
